Farm Credit of Northwest Florida, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of Farm Credit of Northwest Florida, ACA (Association) for the period ended September 30, 2026, with comparisons to prior periods. These comments should be read in conjunction with the accompanying financial statements, notes to the financial statements and the 2025 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's portfolio is diversified over a range of agricultural commodities including forestry, row crops, livestock, peanuts, horticulture, dairies and rural homes. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for nonfarm income in the area, somewhat reduces the level of dependency on any single commodity.

The total loan volume of the Association as of September 30, 2026, was $502,235, an increase of $19,091 as compared to $483,144 at December 31, 2025. The increase is due to an increase in originated and participation purchased loan volumes and nonaccrual loan volume, partially offset by an increase in participation sold loan volume.

ASSET QUALITY AND LOAN LOSS RESERVES

There is an inherent risk in the extension of any type of credit. Portfolio credit quality continues to be maintained at an acceptable level and credit administration remains satisfactory. Nonaccrual loans increased to $3,611 at September 30, 2026 from $54 at December 31, 2025. As a percentage of total loans, nonaccrual loans were 0.72 percent and 0.01 percent at September 30, 2026 and December 31, 2025, respectively. The increase in nonaccrual loans was due to the transfer of seven loans to nonaccrual during the first quarter of 2026 and three additional loans during the third quarter of 2026, partially offset by the full liquidation of one loan during the second quarter of 2026. Loans classified under the Farm Credit Administration's Uniform Loan Classification as "acceptable" or "other assets especially mentioned" were 99.50 percent of total loans at September 30, 2026, as compared to 99.17 percent at December 31, 2025.

Association management maintains an allowance for credit losses (ACL) in an amount considered sufficient to absorb estimated current and expected credit losses over the financial assets expected life. The most significant component of the Association's ACL is the allowance for credit losses on loans (ACLL). The ACLL at September 30, 2026, was $1,674 or 0.33 percent of total loans compared to $1,748 or 0.36 percent of total loans at December 31, 2025, and is considered by management to be adequate to cover estimated current and expected losses within the loan portfolio. See further detail on the Association's ACL within the Association's Annual Report and discussion of significant provision for credit losses within the *Results of Operations* below.

RESULTS OF OPERATIONS

For the three months ended September 30, 2026

Net income for the three months ended September 30, 2026, was $1,858, a decrease of $105 as compared to net income of $1,963 for the same period ended in 2025. The decrease was primarily due to an increase in noninterest expense and provision for credit losses and income taxes, partially offset by an increase in net interest income and noninterest income.

For the three months ended September 30, 2026, net interest income after provision for credit losses was $3,802, an increase of $38 as compared to $3,764 for the same period in 2025. The increase was primarily due to higher net average loans outstanding, increased

earnings on loanable funds, and higher average net interest rates, partially offset by higher average balances and average interest rates on the Association's notes payable to AgFirst and a provision expense for credit losses. The net interest margin was 3.07 percent, a decrease of five basis points as compared to the same period ended in 2025.

The provision for credit losses for the three months ended September 30, 2026, was $24, an increase of $149 from the reversal of credit losses of $125 for the same period ended during the prior year. The increase is due to a shift in the outlook of macroeconomic scenarios that influence estimated losses and an increase to the specific reserve, partially offset by a decrease in the qualitative adjustment for crop stress.

Noninterest income increased $131 to $915 during the three months ended September 30, 2026 compared to the same period ended during the prior year primarily due to an increase in patronage refunds from other Farm Credit institutions, gains on sales of premises and equipment, higher loan fees, and other noninterest income, partially offset by lower gains on the sale of secondary mortgage market loans.

For the three months ended September 30, 2026, noninterest expense increased $271 to $2,855 compared to the same period ended in 2025 primarily due to an increase in salaries and employee benefits, insurance fund premiums, occupancy and equipment expense, purchased services (largely driven by the increase in operating expense from AgFirst Farm Credit Bank for technology and software services), data processing expense, and other operating expenses.

For the nine months ended September 30, 2026

Net income for the nine months ended September 30, 2026, was $5,494, an increase of $763 as compared to net income of $4,731 for the same period ended in 2025. The increase was primarily due to an increase in net interest income and noninterest income and a provision reversal for credit losses, partially offset by an increase in noninterest expense and provision for income taxes expense.

For the nine months ended September 30, 2026, net interest income after provision for credit losses was $11,256, an increase of $1,068 as compared to $10,188 for the same period in 2025. The increase was primarily due to higher net average loans outstanding, increased earnings on loanable funds, and higher average net interest rates, partially offset by higher average balances and average interest rates on the Association’s notes payable to AgFirst. The net interest margin was 3.10 percent, a decrease of six basis points as compared to the same period ended in 2025.

The reversal of credit losses for the nine months ended September 30, 2026, was $47, a decrease of $329 from the provision for credit losses of $282 for the same period ended during the prior year. The decrease is due to a decrease in the provision expense for unfunded commitments, a decrease in changes for probabilities of default and loss given defaults, a shift in the outlook of macroeconomic scenarios that influence estimated losses, and a decrease in the qualitative adjustment for crop stress, partially offset by an increase to the specific reserve.

Noninterest income increased $377 to $2,760 during the nine months ended September 30, 2026 compared to the same period ended during the prior year primarily due to an increase in patronage refunds from other Farm Credit institutions, loan fees, fees for financially related services, insurance fund refunds, gains on sales of premises and equipment, and other noninterest income, partially offset by lower gains on the sale of secondary mortgage market loans.

For the nine months ended September 30, 2026, noninterest expense increased $674 to $8,516 compared to the same period ended in 2025 primarily due to an increase in salaries and employee benefits, insurance fund premiums, occupancy and equipment, purchased services (largely driven by the increase in operating expense from AgFirst Farm Credit Bank for technology and software services), data processing expense, and other operating expenses.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with AgFirst Farm Credit Bank (the Bank) through a General Financing Agreement. The General Financing Agreement utilizes the Association’s credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at September 30, 2026, was $408,258 as compared to $391,089 at December 31, 2025. The Association had no lines of credit with third parties as of September 30, 2026.

CAPITAL RESOURCES

Total members' equity at September 30, 2026, was $106,608, an increase of $5,543 from a total of $101,065 at December 31, 2025. The increase is due to an increase in capital stock and participation certificates and unallocated retained earnings. Total capital stock and participation certificates were $1,728 on September 30, 2026, compared to $1,679 on December 31, 2025. The increase is attributed to the issuance of capital stock and participation certificates in the normal course of business.

The Farm Credit Administration (FCA) sets minimum regulatory capital requirements with a capital conservation buffer for System banks and associations. Capital adequacy is evaluated using a number of regulatory ratios.

The following sets forth the regulatory capital ratios:

	Regulatory Minimum Including Buffer*	September 30, 2026	December 31, 2025	September 30, 2025
Permanent Capital Ratio	7.00%	18.69 %	19.71 %	20.07 %
Common Equity Tier 1 (CET1) Capital Ratio	7.00%	18.63 %	19.64 %	19.99 %
Tier 1 Capital Ratio	8.50%	18.63 %	19.64 %	19.99 %
Total Regulatory Capital Ratio	10.50%	18.98 %	20.04 %	20.43 %
Tier 1 Leverage Ratio**	5.00%	19.02 %	19.91 %	20.15 %
Unallocated Retained Earnings (URE) and URE Equivalents	1.50%	18.68 %	19.57 %	19.80 %

**Include full capital conservation buffers.*

***The Tier 1 Leverage Ratio must include a minimum of 1.50% of URE and URE equivalents.*

If the capital ratios fall below the minimum regulatory requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval. For all periods presented, the Association exceeded minimum regulatory requirements for all of the ratios.

REGULATORY MATTERS

On July 24, 2026, the FCA published a final rule on loan performance categories and financial reporting in the Federal Register. The rule amends the high-risk loan performance categories by removing formally restructured loans (TDRs) to ensure the regulations remain consistent with U.S. generally accepted accounting principles (GAAP). The amendment reflects changes in GAAP that eliminated the measurement guidance for TDRs and replaced it with enhanced disclosure requirements for certain loan modifications to borrowers experiencing financial difficulty. The regulation became effective on August 24, 2026.

On February 27, 2026, the FCA published a proposed rule on Permanent Capital Revisions in the Federal Register. The proposed rule would reduce the role of permanent capital as a measure of capital adequacy, simplify the permanent capital ratio calculation, eliminate permanent capital disclosure requirements from shareholder and investor reporting, and make other clarifications, corrections, and updates to capital-related regulations. The comment period ended on April 28, 2026.

On February 8, 2024, the FCA approved a final rule to amend its regulatory capital requirements to define and establish risk-weightings for High Volatility Commercial Real Estate (HVCRE) exposures by assigning a 150% risk-weighting to such exposures, instead of the current 100%, to reflect increased risk characteristics. The rule further ensures comparability between the FCA's risk-weightings and the federal banking regulators, with deviations as appropriate to accommodate the different regulatory, operational, and credit considerations of the System. The final rule excludes certain acquisition, development and construction loans that do not present as much risk and therefore do not warrant the risk weight for HVCRE. In addition, the final rule adds an exclusion for loans originated with a balance for less than $500,000. The rule became effective on January 1, 2026 and did not have a material impact on the Association's capital ratios.

SHAREHOLDER INVESTMENT

Shareholder investment in the Association may be materially affected by the financial condition and results of operations of the Bank. Copies of the Bank's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2764, or writing Matthew Miller, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning the Bank can also be obtained at their website, *www.agfirst.com*. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 850-718-5535, or writing Abby Todd, Chief Financial Officer, Farm Credit of Northwest Florida, ACA, P.O. Box 7000, Marianna, FL 32447, or accessing the website, *www.farmcredit-fl.com*. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)

(unaudited)

Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

Organization

The accompanying financial statements include the accounts of Farm Credit of Northwest Florida, ACA and its Production Credit Association (PCA) and Federal Land Credit Association (FLCA) subsidiaries (collectively, the Association). Descriptions of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2025, are contained in the 2025 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair statement of results for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed.

Certain amounts in the prior period's consolidated financial statements have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of those to be expected for a full year.

Significant Accounting Policies

The Association's accounting and reporting policies conform with U.S. generally accepted accounting principles (GAAP) and practices in the financial services industry. To prepare the financial statements in conformity with GAAP, management must make estimates based on assumptions about future economic and market conditions (for example, unemployment, market liquidity, real estate prices, etc.) that affect the reported amounts of assets and liabilities at the date of the financial statements, income and expenses during the reporting period, and the related disclosures. Although these estimates contemplate current conditions and expectations of change in the future, it is reasonably possible that actual conditions may be different than anticipated, which could materially affect results of operations and financial condition.

Management has made significant estimates in several areas, including loans and allowance for credit losses (Note 2, *Loans and Allowance for Credit Losses*) and financial instruments (Note 4, *Fair Value Measurement*). Actual results could differ from those estimates.

For further details of significant accounting policies, see Note 2, *Summary of Significant Accounting Policies*, from the latest Annual Report.

Accounting Standards Updates (ASUs) Issued but Not Yet Adopted

The Financial Accounting Standards Board (FASB) has issued certain accounting standards that will become effective for the Association in future periods. There were no ASUs issued, nor were there material updates to previously disclosed accounting standards, during the nine months ended September 30, 2026 that are expected to have a material impact on the Association's financial statements. For a detailed description of ASUs previously issued, see the latest Annual Report.

ASUs Effective During the Period

In July 2025, the FASB issued ASU 2025-05 Financial Instruments – Credit Losses – Measurement of Credit Losses for Accounts Receivable and Contract Assets. The amendments in this update provide all entities with a practical expedient which would allow all entities when developing reasonable and supportable forecasts as part of estimating expected credit losses to assume that current conditions as of the balance sheet date do not change for the remaining life of the asset. The amendments also provide entities other than public business entities with an accounting policy election when estimating expected credit losses for current accounts receivables and current contract assets arising from transactions accounted for under Topic 606. The amendments were effective for annual reporting periods beginning after December 15, 2025, and interim periods within those annual reporting periods under a prospective approach. The impact of adoption did not have a significant impact on the Association's financial condition, results of operations, and cash flows.

Note 2 — Loans and Allowance for Credit Losses

A summary of loans outstanding at period end follows:

	September 30, 2026	December 31, 2025
Real estate mortgage	$ 304,527	$ 303,096
Production and intermediate-term	131,333	113,831
Agribusiness:		
Loans to cooperatives	1,917	2,128
Processing and marketing	26,608	31,975
Farm-related business	4,714	4,511
Rural infrastructure:		
Communication	9,935	6,562
Power and water/waste disposal	3,582	1,752
Rural residential real estate	18,575	18,245
Other:		
International	1,044	1,044
Total loans	$ 502,235	$ 483,144

A substantial portion of the Association's lending activities is collateralized, and exposure to credit loss associated with lending activities is reduced accordingly. The Association may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, and comply with Farm Credit Administration (FCA) regulations.

The following table shows loans, classified under the FCA Uniform Loan Classification System, as a percentage of total loans by loan type as of:

	September 30, 2026	December 31, 2025
Real estate mortgage:		
Acceptable	97.38%	99.11%

Other	—	—	—	1,044	1,044
Total	$ 4,531	$ —	$ 4,531	$ 478,613	$ 483,144

There were no accruing loans greater than 90 days past due as of September 30, 2026 and December 31, 2025.

The following tables provide the amortized cost for nonaccrual loans with and without a related allowance for credit losses on loans as of:

	September 30, 2026		
Nonaccrual loans:	Amortized Cost with Allowance	Amortized Cost without Allowance	Total
Real estate mortgage	$ —	$ 1,624	$ 1,624
Production and intermediate-term	328	1,659	1,987
Total	$ 328	$ 3,283	$ 3,611

	December 31, 2025		
Nonaccrual loans:	Amortized Cost with Allowance	Amortized Cost without Allowance	Total
Real estate mortgage	$ —	$ 28	$ 28
Production and intermediate-term	—	26	26
Total	$ —	$ 54	$ 54

The Association recognized no interest income and $54 of interest income on nonaccrual loans during the three and nine months ended September 30, 2026, respectively. The Association recognized no interest income on nonaccrual loans during the three and nine months ended September 30, 2025.

Reversals of interest income on loans that moved to nonaccrual status were $5 and $48 for the three and nine months ended September 30, 2026 and not material for the three and nine months ended September 30, 2025.

A summary of changes in the allowance for credit losses is as follows:

	Three Months Ended September 30,	
	2026	2025
Allowance for Credit Losses on Loans:		
Balance at beginning of period	$ 1,668	$ 1,850
Charge-offs	(4)	(1)
Recoveries	1	1
Provision for (reversal of) credit losses on loans	9	(107)
Balance at end of period	$ 1,674	$ 1,743
Allowance for Credit Losses on Unfunded Commitments:		
Balance at beginning of period	$ 150	$ 232
Provision for (reversal of) unfunded commitments	15	(18)
Balance at end of period	$ 165	$ 214
Total allowance for credit losses	$ 1,839	$ 1,957

	Nine Months Ended September 30,	
	2026	2025
Allowance for Credit Losses on Loans:		
Balance at beginning of period	$ 1,748	$ 1,475
Charge-offs	(97)	(9)
Recoveries	60	61
Provision for (reversal of) credit losses on loans	(37)	216
Balance at end of period	$ 1,674	$ 1,743
Allowance for Credit Losses on Unfunded Commitments:		
Balance at beginning of period	$ 175	$ 148
Provision for (reversal of) unfunded commitments	(10)	66
Balance at end of period	$ 165	$ 214
Total allowance for credit losses	$ 1,839	$ 1,957

For the nine months ended September 30, 2026, the Allowance for Credit Losses decreased $118 or 6.03 percent compared to the same period ended in 2025 due to a decrease in the provision for unfunded commitments and provision for credit losses on loans, and an increase in net charge-offs.

Loan modifications may be granted to borrowers experiencing financial difficulty. Qualifying disclosable modifications are one, or a combination of, principal forgiveness, interest rate reduction, or an other-than-insignificant payment delay or term extension. Covenant waivers and modifications of contingent acceleration clauses are not considered term extensions.

Modified loans to borrowers experiencing financial difficulty and activity on these loans were not material during the three and nine months ended September 30, 2026 and 2025. There were no material commitments to lend to borrowers experiencing financial difficulty whose loans have been modified at September 30, 2026 and 2025. There were no material modifications to borrowers experiencing financial difficulty that occurred during the previous twelve months and for which there was a subsequent payment default during the period.

The Association had no loans held for sale at September 30, 2026 and December 31, 2025.

Note 3 — Investments

Equity Investments in Other Farm Credit System Institutions

Equity investments in other Farm Credit System institutions are generally nonmarketable investments consisting of stock and participation certificates, allocated surplus, and reciprocal investments in other institutions regulated by the FCA. These investments are carried at cost and evaluated for impairment based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value.

Associations are required to maintain ownership in AgFirst Farm Credit Bank (the Bank) in the form of Class B or Class C stock as determined by the Bank. The Bank may require additional capital contributions to maintain its capital requirements. The Association owned 1.18% of the issued stock and allocated retained earnings of the Bank as of September 30, 2026, net of any reciprocal investment. As of that date, the Bank's assets totaled $52.0 billion and shareholders' equity totaled $2.3 billion. The Bank's earnings were $328 million for the nine months ended September 30, 2026. In addition, the Association held investments of $656 related to other Farm Credit institutions.

Note 4 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. See Note 2, *Summary of Significant Accounting Policies* of the most recent Annual Report to Shareholders for additional information.

There were no changes to valuation methodologies or fair value hierarchy classifications during the periods presented. See Note 8, *Fair Value Measurement* of the most recent Annual Report to Shareholders for descriptions of the valuation methodologies used for assets and liabilities measured at fair value.

Fair values are estimated at each period end date for assets and liabilities measured at fair value on a recurring basis. The following tables summarize assets measured at fair value at period end.

	September 30, 2026			
	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Recurring assets				
Assets held in trust funds	$ —	$ —	$ —	$ —
Nonrecurring assets				
Nonaccrual loans	$ —	$ —	$ 164	$ 164
Other property owned	$ —	$ —	$ —	$ —

	December 31, 2025			
	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Recurring assets				
Assets held in trust funds	$ 5	$ —	$ —	$ 5
Nonrecurring assets				
Nonaccrual loans	$ —	$ —	$ —	$ —
Other property owned	$ —	$ —	$ —	$ —

Note 5 — Commitments and Contingent Liabilities

From time to time, legal actions may be pending against the Association in which claims for damages are asserted. As of the date of these financial statements, the Association is not aware of any material actions. However, the Association cannot ensure that such actions or other contingencies will not arise in the future.

Note 6 — Subsequent Events

On October 9, 2026, Hurricane Isaias impacted a portion of the Association's territory. Management is working to assess and quantify the financial impact this hurricane will have on our customers and the Association.

Hurricane Isaias caused significant damage to the Association's Milton and Jay offices, resulting in temporary closure of both locations. Management is currently assessing the related financial impact of the damage.
